Investerings van 12,6 miljoen euro voor SendCloud

Sendcloud heeft 12,6 miljoen euro opgehaald in een tweede grote investeringsronde. Het groeigeld wordt gebruikt voor de doorontwikkeling van het platform en internationale expansie.

Daarmee wil de Eindhovense scale-up de internationale bezorgmarkt doorbreken. Het koppelt e-commerceplatformen enerzijds en vervoerders anderzijds. Daardoor heeft de consument in de checkout meer keuze uit bezorgmomenten.

In een persbericht leggen de Brabanders uit: "De vraag naar flexibele bezorging en het ontbreken van een wereldwijd verzendnetwerk maken het voor veel webshops lastig op grote schaal te concurreren. Met

een centraal platform wil Sendcloud efficiënte pakketbezorging op internationaal niveau vereenvoudigen. Op die manier is verzending niet langer een struikelblok maar juist een groeimotor."

De investeringsronde is geleid door AXA Venture Partners, aangevuld met BOM Brabant Ventures, Bonsai Partners en een lening van de Rabobank. Tot eerdere investeerders behoren ook HenQ, TiiN Capital en Startupbootcamp.

Het geld wordt gebruikt om het personeelsbestand nog een keer te verdubbelen. Afgelopen jaar groeide het verzendplatform al van 120 naar 260 medewerkers. Het doel is met nog eens tweehonderd man te groeien. Die nieuwe groep gaat zich vooral richten op de internationale expansie, vertelt algemeen directeur Rob van den Heuvel (foto).

Grai Matter Labs gets \$14M boost to edge AI

Nieke Roos

🕒 24 November

Grai Matter Labs (GML) has announced its latest financing round of 14 million dollars. The round was led by the iBionext healthcare startup studio in Paris, where the artificial intelligence specialist incubated, joined by all existing investors and newly welcomed Bpifrance through the Future Investment Program and Celeste Management. The [fabless semiconductor scale-up with Eindhoven roots](#) will utilize the funds to accelerate design and market launch of its first full-stack AI system-on-chip platform, to deliver on customer needs at the edge.

GML's mission is to bring fastest AI per watt for sensor analytics and machine learning to every device on the edge. According to the company, its programmable Neuronflow technology enables industry-leading inference latency efficiently, more than an order of magnitude better than competing solutions. Its current accelerator chip Grai One and the Grai One HDK are available for

MAURITS KUYPERS

A woman with dark hair, wearing a grey ribbed turtleneck sweater and a white surgical face mask, is pointing her right hand towards a large digital screen. The screen displays a web application titled 'Vote Video App' with a 'Current Question' section. The interface includes a 'Question' field, a 'Vote' button, and a 'Results' section showing a bar chart with two bars, one blue and one green, with numbers 2 and 1 respectively. There are also several small circular icons and a 'Back' button. The woman is standing in a room with a potted plant on the left and a large blue object on the right. The word 'EVENTS' is overlaid in large white capital letters in the center of the image.

Brainport meets Brainport: De Brainportondernemer van morgen

Ook tijdens Corona draait de hightech & maakindustrie over het algemeen goed door in Brainport. We kijken daarom met veel vertrouwen naar de toekomst.

Om deze toekomst vorm te geven, is het van groot belang dat jonge talenten het ondernemerschap kunnen ontdekken bij zichzelf. Zij zijn immers de **Brainportondernemers van morgen** en hiermee een belangrijk onderdeel van het toekomstige ecoysteem. Tijdens de tweede digitale Brainport meets Brainport gaan we daarom met de jonge talenten in gesprek. Zo

A baseball pitcher, Lotte Lemmens, is captured in the middle of a pitching motion. He is wearing a blue Los Angeles Dodgers jersey with "Dodgers" in white script across the chest, and the number "34" in red below it. He is also wearing a grey baseball cap with the Dodgers logo, grey pants, and a black belt. His left arm is extended forward, holding a baseball, while his right arm is back, holding a black baseball glove. The background is a blurred crowd of spectators in a stadium.

Re-energizer

By Michel van Loon

re energizer

Ignite **the inner fire** in your team

WHY RE-ENERGIZER?

- ⊗ My experience @ CES 2020
 - ⊗ People seem **constrained** in their excitement
 - ⊗ Stories were being told from the 'mind'

✓ Positive energy attracts

✓ You can **feel** it

✓ E.g. **pride**

WE FOCUS ON THE NEGATIVE

✓ For 16 years I worked for the **biggest brands**

RESEARCH & DEVELOPMENT

SALES SUPPORT

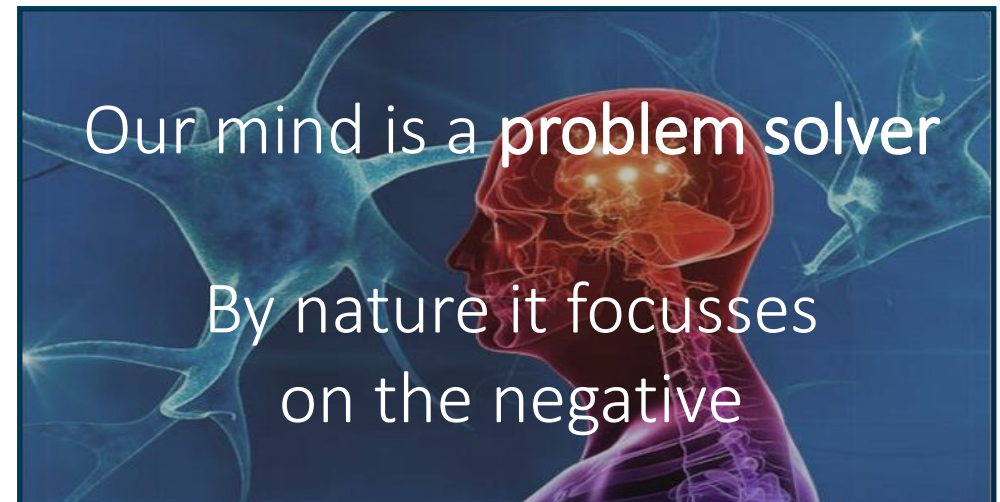

SALES TRAINING
MARKETING & COMMUNICATION

✗ Internally a **negative mindset**

✗ Focus on competition

✗ Focus on own weaknesses

✗ As a result great products often fail

THE RE-ENERGIZER METHOD

✓ Positive energy

✓ Outdoor setting

✓ Passive energizers

✓ Active energizers

Mountainbiking, skiing,
snowboarding, iceskating,
longboarding, scuba
diving, kite surfing.....

✓ Rediscover (you & brand)

✓ Feel

✓ The rebel in you

✓ Dream

✓ The bigger picture

✓ How do you fit in

✓ Out-of-your-box

✓ Energy connects

⊗ PROBLEM

- ⊗ Stuck in our own mind bubble
- ⊗ No emotional connect with brand

✓ GOAL

- ✓ A mental boost
- ✓ Boost the winning energy in your team for 2021

Follow Re-Energizer on

RE-ENERGIZER WFH PROGRAM

- ✓ 1-day 1-on-1 energizing session
- ✓ For manager & team members
- ✓ 3 winter settings to choose from
